An ideal Spiritual Village !

A vision of Swami Udit Chaitanyaji

Near the birth place of Jagadguru Adi Sankara, on the banks of Chalakudy river, surrounded by pleasing views and verdant greenery, a spiritual village on a 10 acre land is taking shape. "The Bhagavatham Village" conceived by Swami Udit Chaithanya, is dedicated to the noble purpose of creating a spiritual and cultural development of mankind and also for providing an opportunity to learn and practice the Indian tradition of spiritual growth by focusing the mind on the knowledge of Indian vedic culture.

The objectives of the Bhagavatham Village is to promote "Pancha Yagna" ie;

Bhooseva:- Honouring mother nature by promoting organic farming to cultivate pure vegetables and fruits.

Gowseva:- Building "Gosala" to protect and breed cows.

Deenaseva:- Taking care of needy people who needs support.

Mathru-Pithru seva:- Respecting, serving and looking after parents and other elderly persons.

Jnanaseva:- Respecting and honoring the Guru's and spreading their knowledge through spiritual discourses and practices.

Bhagavatham village will provide bed, board and all other conveniences for the members and guests to do these sevas.

In fact, its objective is to become a model spiritual center for the entire world.

One of the principle objective of The Bhagavatham Village is to develop and fortify the physical and mental make-up of its members. It plans to organize activities and camps on educational and socio-cultural themes and conduct classes in Meditation, Yoga and Ayurveda.

Bhagavatham Village will have a unique meditation centre for group meditation designed specially for this purpose taking into account the dynamics involved in such a meditation practice.

Bhagavatham Village intends to train those who are interested in understanding and interpreting our great epics, Vedas, Sreemad Bhagavatham, The Holy Gita, Narayaneeyam, Mahabharath and Ramayana.

Bhagavatham Village has plans to have various schemes to protect nature and the Eco-system consisting of its flora & fauna. The concept of "Nakshatravanam" where trees related to each sun sign will be grown to recharge the individual with positive energy.

Such a service-oriented environment and an ambience for meditation and experiencing the divinity will undoubtedly raise the mind to a level of self-fulfillment and bliss. It is indeed our soulful prayer to the almighty that Bhagavatham Village will become a unique centre for cultural and spiritual upliftment and will help to expose in detail the Indian culture and its noble traditions before the world.

**" Manmana bhava madhbhaktha:
madhyaji maam namaskuru
mamevyshyasi sathyam they
pratijane priyosi mey ! "**

Bhagavad Gita
Chapter:18 sloka: 65

Fix your mind on me, be devoted to me,
workship me, and bow down to me,
then you shall come to me,
Truly do I promise to you,
for you are dear to me.
